Animal Fun
In
Outer space
By
Lilly A
One time me and my friends

Kara, Mary, Grace and Bucky went
to a planet called Pluto.
We went in a rocket ship.
Then we turned on Pluto and wanted to go discover.
Me and my friends looked around and found stuffed animals that had come alive.
My favorite animal was a bunny covered in flowers.
We played with all our new friends.
We took all the stuffed animals home with us.
But they stopped talking and playing when I got back to Earth. They just sit on my bed.
