Kitty Correspondence

By Madeline L.
Dear Kitty in Russia,

I am a kitty who lives in the United States. My favorite books are *My Life as a Kitty* and *Mr. Orange, the Cat Therapist*.

My favorite place to cuddle is the couch. Where is your favorite place to sleep?

I have to use an old computer to type this, since I’m a cat.

I am a gray Calico. I’m 4 years old in human years, but in cat years I’m 32.

Sincerely,

Smokey
Dear Smokey,

I live in a suburb of Moscow, the capital of Russia.

I have to use an old *typewriter*. It’s worse than an old computer.

My favorite place to cuddle is on the pillow. Stuffed with feathers, it feels so soft.

I’m a Siamese cat. I’m 5 in cat years, and in human years I’m 36.4 human years older!

Sincerely,

Caboodle
Dear Caboodle,

Have you ever read any books? There are books written especially for cats, possibly you should try one of those.

What’s your favorite food? Mine’s liver on chicken, drizzled with barbecue sauce. It’s amazing!

Another kitty lives in this house with me, her name is Bobtail. She doesn’t like me very much, because she thinks the couch is *her* spot.

Sincerely,

Smokey
Dear Smokey,

I’ve read one book, but it wasn’t very interesting. It’s called the struggles of being an indoor cat.

My favorite food is baked fish on rye. I don’t get that very often, you see, because it’s very expensive.

Resheeda is another cat that lives in my house. She has a pen-pal from Thailand and is very friendly.

Sincerely,

Caboodle
Dear Caboodle,

Do you think we could meet in person some time? My owner’s summer break is coming up, and I hope you can come to our little cottage.

That book sounds really boring. I’m an indoor and outdoor cat, so I get fresh air.

I get to watch TV, also. We get a special channel called Cat network. I love it.

They’ve opened a park downtown, and there are dogs everywhere! Help me!

Sincerely,

Smokey
Dear Smokey,

We’ll be able to visit you in the fall. Resheeda’s visiting her pen-pal this summer, so we can’t visit you then.

I advise you to try to chase the dogs, if they are small. If they are big, hide. They might try to destroy you!

My typewriter is almost out of ink.

Sincerely,

Caboodle

Greetings from Thailand!
